

Riley Dorrington

New Port Richey, FL | (607) 744-2617 | rwdorrington@gmail.com | [Portfolio](#) | [LinkedIn](#)

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML, CSS | **Familiar With:** Java, C++, C#, .NET, PHP, Visual Basic, Bash

Frameworks: Flask, React, Node.js, Selenium, Apache Tomcat, JSP | **Tools:** Git, Docker, GitHub Actions, Azure, MySQL, Linux, Figma, VS Code

Practices: Agile/Scrum, CI/CD, RESTful API Design

PROJECTS

Job Board Aggregator - Production Data Pipeline & Web App | [Live Demo](#) 2025 - Present

Python, JavaScript ES Modules, concurrent.futures, GitHub Actions, Docker, SQL

- Architected and deployed automated job aggregation pipeline indexing 200,000+ active listings from 5,000+ companies across five ATS platforms (Greenhouse, Lever, Ashby, BambooHR, Workday).
- Designed chunked gzip data architecture (~25k jobs/chunk) with Web Worker-based decompression for progressive client-side loading and fast initial render.
- Built advanced filtering and classification engine with keyword-weighted experience tagging (intern → senior), regex filtering, URL state persistence, and localStorage-based tracking.
- Developed CI/CD pipeline via GitHub Actions (daily cron + manual dispatch) to scrape, merge, version, and deploy updates to GitHub Pages.

Discord Bot for Automated Reddit Scraping | [GitHub](#) 2024 - 2025

Python, Selenium, Azure, Docker

- Built and deployed a Discord bot that automated subreddit scraping and media delivery, reducing manual content curation from hours to minutes.
- Deployed using Docker containers on Azure Cloud, improving uptime and scalability.

Spotify Playlist Randomizer | [GitHub](#) 2024 - 2025

PHP, JavaScript, OAuth, Spotify API

- Built a full-stack web app integrating Spotify's OAuth flow and REST API to physically reorder playlist tracks, working around Spotify's non-random shuffle algorithm.
- Implemented pagination support to handle large playlists (1,000+ tracks) while gracefully skipping unavailable local files within API rate limits

Provisio Hotel Booking Platform - Capstone - Bellevue University

2023

PHP, JavaScript, SQL

- Designed and implemented a full-stack hotel booking platform with secure reservation management.
- Collaborated in a multi-developer Agile team using Scrum, weekly sprints, and daily stand-ups; delivered features on schedule across requirements, debugging, and integration.

EXPERIENCE

Rural Carrier Associate - United States Postal Service - Odessa, FL Feb 2026 - Present

- Manage delivery logistics under strict daily deadlines across an assigned rural route.

Assistant Rural Carrier - United States Postal Service - Binghamton, NY Nov 2024 - May 2025

- Collaborated with maintenance staff to ensure vehicle compliance and operational efficiency.
- Managed delivery logistics under strict deadlines, reinforcing attention to detail and reliability.

Raid Leader - World of Warcraft 2019 - Present

- Led 20+ member team in real-time voice coordination, achieving top 10% global performance across 100,000+ teams; analyzed team performance via Warcraft Logs to identify inefficiencies and optimize strategy.

EDUCATION

Georgia Institute of Technology - M.S. in Computer Science Starting Fall 2026

Bellevue University - B.S. in Software Development | GPA: 4.00 Graduated Sep 2023

Broome Community College - A.A.S. in Computer Information Systems | GPA: 3.62 Graduated Aug 2021
